

## Project Management Process Steps

	<b>PHASE A</b> First Enquiry	<b>PHASE B</b> Feasibility	<b>PHASE C</b> Selection	<b>PHASE D</b> Detailed design engineering	<b>PHASE E</b> Production	<b>PHASE F</b> Project evaluation and finalization
<b>Step1</b>	Information gathering: window dimensions - space requirement - way of mounting - voltage - washing system - control unit	Draft design	Selection choice	Drawings and specification	Finalization of drawings and specification	Project analysis with customer
<b>Step2</b>	Term and Conditions	Quotation	Contract agreement draft	Design freeze	Schedule of production	actions
<b>Step3</b>	General requirements	Contract discussion and finalization	Contract execution	Prototype production	First product inspection	Project review
<b>Step4</b>	Technical Requirements	Production Research	Order confirmation	Test Procedure determination	Production execution	
<b>Step5</b>	Clause by clause document analyse				Final product inspection
